

# AFS 24

You're not one of those big, fancy cattle operations ... you have a small herd. Just a few saddle horses, maybe a few 4-H project animals. Perhaps you're even considering sprouting a few greens for your own consumption. They'd be great in that green smoothie you juice each morning!

Sun Roads Farmory has just the machine you're looking for! We'd like to introduce you to the **AFS 24**. Don't let the smaller stature of this little work horse fool you! It will meet the feed needs of nine of your prized animals everyday. *That's an 1,100 pound animal!* If your animals are smaller, you'll be able to feed even more!

Don't forget about those smaller animals, either! Chickens, goats, sheep, & rabbits will love a lil' bit of fresh grass each day! Especially in the cold, dry winter months!

## So what can this little machine do for you?
